

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: David Jacobson
DOCKET NO.: 04-27310.001-R-1
PARCEL NO.: 05-07-116-011

The parties of record before the Property Tax Appeal Board are David Jacobson, the appellant, by attorney William Seitz with the law firm of Fisk Kart Katz and Regan in Chicago and the Cook County Board of Review.

The subject property consists of a 10,679 square foot parcel of land improved with an 81-year old, two-story, frame, single-family dwelling containing 4,119 square feet of living area, two and one-half baths, a fireplace, air conditioning, and a full, finished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of four properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, frame or stucco, single-family dwellings with one and one-half, two or two and one-half baths, one or two fireplaces, and, for two properties, air conditioning. Basement information was not provided. The properties range: in age from 88 to 108 years; in size from 3,012 to 4,853 square feet of living area; and in improvement assessments from \$15.91 to \$19.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$82,375 or \$20.00 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood. The properties consist of two-story, frame, single-family dwellings with between three and one-half baths, one fireplace, a partial or full basement, and, for two properties, air conditioning. The properties range: in age from 69 to 79 years; in size from 3,158 to 4,381 square feet of living area; and in improvement assessments from \$22.18 to \$22.31 per

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 26,911
IMPR.: \$ 82,375
TOTAL: \$109,286

Subject only to the State multiplier as applicable.

square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the testimony, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1 and #4 and the board of review's comparable #1 are the most similar to the subject in design, size, and age. These properties are frame or stucco, two-story, single-family dwellings located within the subject's neighborhood. The properties range: in age from 79 to 93 years; in size from 3,768 to 4,554 square feet of living area; and in improvement assessments from \$15.91 to \$22.31 per square foot of living area. In comparison, the subject's improvement assessment of \$20.00 per square foot of living area is within the range of these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
