

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Albert Scherb
DOCKET NO.: 04-27311.001-R-1
PARCEL NO.: 05-20-111-022

The parties of record before the Property Tax Appeal Board are Albert Scherb, the appellant, by attorney William Seitz with the law firm of Fisk Kart Katz and Regan in Chicago and the Cook County Board of Review.

The subject property consists of a 14,025 square foot parcel of land improved with a 70-year old, two-story, frame, single-family dwelling containing 2,051 square feet of living area, two baths, a fireplace, and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of four properties suggested as comparable and located within one block of the subject. The properties are described as two-story, frame or stucco, single-family dwellings with one and one-half, two or two and one-half baths, one or two fireplaces, and, for three properties, air conditioning. Basement information was not provided. The properties range: in age from 69 to 79 years; in size from 1,876 to 2,191 square feet of living area; and in improvement assessments from \$15.74 to \$27.01 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$62,078 or \$30.27 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on two properties suggested as comparable and located within the subject's neighborhood. The properties consist of two-story, frame or masonry, single-family dwellings with two or two and one-half baths, one fireplace, and a full, unfinished basement. The properties are 81 and 76 years old and contain 2,219 and 1,872 square feet of living area. They have improvement assessments of \$35.20 and \$29.74 per square foot of living area.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 25,805
IMPR.: \$ 51,275
TOTAL: \$ 77,080

Subject only to the State multiplier as applicable.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

At hearing, the appellant's attorney argued the comparables are superior to the board of review's comparables and are located within one block of the subject.

After reviewing the record and considering the testimony, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

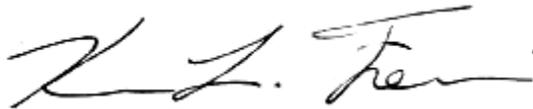

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The parties submitted a total of six properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, #3 and #4 are the most similar to the subject in design, size, location and age. These properties are frame or stucco, two-story, single-family dwellings located within the subject's neighborhood. The properties range: in age from 69 to 79 years; in size from 2,070 to 2,191 square feet of living area; and in improvement assessments from \$15.74 to \$27.01 per square foot of living area. In comparison, the subject's improvement assessment of \$30.27 per square foot of living area is above the range of these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
