

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Bill Lynn
DOCKET NO.: 04-27498.001-R-1
PARCEL NO.: 14-33-305-044-0000
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Bill Lynn, the appellant, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 115-year-old, two-story, single-family dwelling of masonry construction containing 3,794 square feet of living area and located in North Chicago Township, Cook County. Features of the home include two full bathrooms, a full-unfinished basement, air-conditioning, two fireplaces and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story or three-story, single-family dwellings of frame or masonry construction located within six blocks of the subject. The improvements range in size from 3,501 to 4,752 square feet of living area and range in age from 110 to 115 years. The comparables contain two, three or four full bathrooms. Two comparables contain a finished or unfinished basement as well as a multi-car detached garage, one comparable has a fireplace

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,080
IMPR.: \$ 88,251
TOTAL: \$ 104,331

Subject only to the State multiplier as applicable.

and one comparable has air-conditioning. The improvement assessments range from \$20.96 to \$22.01 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$104,331. The subject's improvement assessment is \$88,251 or \$23.26 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,664 to 2,976 square feet of living area and range in age from 115 to 135 years. The comparables contain from two to four and one-half bathrooms. Two comparables have an unfinished basement and two comparables contain air-conditioning, a fireplace and a two-car detached garage. The improvement assessments range from \$26.67 to \$46.76 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

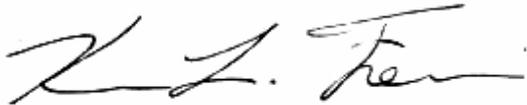

Both parties submitted a total of six properties somewhat similar to the subject but with many variations in living area, design, construction and/or amenities. These six properties have improvement assessments ranging from \$20.96 to \$46.76 per square foot of living area. The subject's per square foot improvement assessment of \$23.26 falls within the range established by these properties. The Board finds of the six comparables offered by the parties, five vary substantially from the subject in living area, one varies in construction, one varies in design and two vary in amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
