

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Shirley Kostakos
DOCKET NO.: 04-27960.001-R-1
PARCEL NO.: 05-34-114-015-0000

The parties of record before the Property Tax Appeal Board are Shirley Kostakos, the appellant, by attorney Edward Larkin of Larkin & Larkin, Park Ridge, Illinois; and the Cook County Board of Review.

The subject property consists of an 83-year old, one-story style dwelling of frame construction containing 1,125 square feet of living area with a full, unfinished basement and a one-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing three suggested comparable properties located within one block of the subject property. The comparables are one or one and one-half story frame or frame and masonry dwellings that are from 82 to 88 years old. They have full unfinished basements, one has central air conditioning, two have fireplaces and they all have garages. The comparables contain from 1,236 to 1,616 square feet of living area and have improvement assessments ranging from \$11.31 to \$15.94 per square foot. The subject property has an improvement assessment of \$18.76 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the subject's neighborhood. They are between .45 and 1.25 miles from the subject property. The comparable properties consist of one or one and one-half story frame or masonry dwellings that are from 83 to 101 years old. They have full basements, with one having finished area, one has central air conditioning, two have

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	21,102
TOTAL:	\$	35,128

fireplaces and three have garages. The dwellings contain from 1,008 to 1,608 square feet of living area and have improvement assessments ranging from \$19.84 to \$23.42 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted.

The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparable two and the board of review's comparable one were one-story frame dwellings like the subject. They were also similar to the subject in size and age and had improvement assessments of \$15.94 and \$19.84 per square foot. The subject's \$18.76 per square foot improvement assessment is between these assessments. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
