

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Stefan Litwicki
DOCKET NO.: 04-28168.001-R-1
PARCEL NO.: 07-34-213-015-0000

The parties of record before the Property Tax Appeal Board are Stefan Litwicki, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a four-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,847 square feet of living area and located in Schaumburg Township, Cook County. Features of the home include two and one-half bathrooms, a full-unfinished basement, air-conditioning and a three-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,769 to 2,956 square feet of living area and range in age from 16 to 35 years. The comparables contain two, two and one-half or three full bathrooms, a finished or unfinished basement, air-conditioning, a fireplace and a two-car attached garage. The improvement

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 5,600
IMPR.:	\$ 34,560
TOTAL:	\$ 40,160

Subject only to the State multiplier as applicable.

assessments range from \$10.28 to \$11.10 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in size, age, construction and location. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$40,162. The subject's improvement assessment is \$34,560 or \$12.14 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction located within four blocks of the subject. The improvements range in size from 2,698 to 3,033 square feet of living area and range in age from four to thirty-five years. The comparables contain two and one-half bathrooms, a finished or unfinished basement, air-conditioning, a fireplace and a two-car garage. The improvement assessments range from \$11.88 to \$13.03 per square foot of living area.

At hearing, the board's representative stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of twelve equity comparables. The Board finds these twelve properties similar to the subject in improvement size, amenities, design and location, however, they are inferior overall to the subject in age. Ten of the comparables range in age from 16 to 35 years, whereas, the subject is only four years old. The improvement assessments range from \$10.28 to \$13.03 per square foot of living area. After considering adjustments for age, the Board finds the subject's improvement assessment of \$12.14 per square foot of

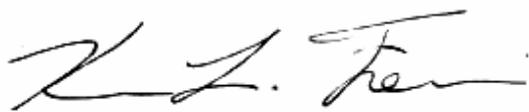

living area is within the range established and supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
