

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Kalman  
DOCKET NO.: 05-00840.001-R-1  
PARCEL NO.: 16-34-309-004

The parties of record before the Property Tax Appeal Board are Robert Kalman, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., in Chicago, and the Lake County Board of Review.

The subject property consists of a 35 year-old, two-story style brick and frame dwelling that contains 3,298 square feet of living area. Features of the home include central air-conditioning, one fireplace, a 575 square foot garage and a partial unfinished basement.

Through his attorney, the appellant submitted evidence to the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant submitted a grid analysis of four comparable properties. The comparables consist of two-story style brick or frame dwellings that range in age from 34 to 42 years and range in size from 3,220 to 3,392 square feet of living area. Features of the comparables include central air-conditioning, garages that contain from 483 to 504 square feet of building area and full or partial unfinished basements. Three comparables have a fireplace. These properties have improvement assessments ranging from \$116,659 to \$140,243 or from \$34.40 to \$42.39 per square foot of living area. The subject has an improvement assessment of \$141,024 or \$42.76 per square foot of living area. Based on this evidence, the appellant requested the subject's total assessment be reduced to \$236,012.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's total assessment of \$250,129 was disclosed. In support of the subject's improvement assessment,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Lake County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	109,105
IMPR.:	\$	141,024
TOTAL:	\$	250,129

Subject only to the State multiplier as applicable.

the board of review submitted property record cards and a grid analysis of three comparable properties located in the same assessor's assigned neighborhood code as the subject. The comparables consist of two-story style brick or brick and frame dwellings that were built in 1970 or 1973 and range in size from 3,193 to 3,652 square feet of living area. Features of the comparables include central air-conditioning, one fireplace, garages that contain 506 or 528 square feet of building area and partial unfinished basements. These properties have improvement assessments ranging from \$142,567 to \$153,933 or from \$43.20 to \$44.65 per square foot of living area. Based on this evidence the board of review requested the subject's total assessment be confirmed.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the parties submitted seven comparables for its consideration. The Board finds all the comparables were similar to the subject in terms of size, age and most property characteristics and had improvement assessments ranging from \$34.40 to \$44.65 per square foot of living area. The subject's improvement assessment of \$42.76 per square foot of living area falls within this range. The Board thus finds the evidence in the record supports the subject's assessment.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

In conclusion, the Board finds the appellant failed to establish unequal treatment in the assessment process by clear and convincing evidence and the subject property's assessment as established by the board of review is correct.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
