

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Karen Ruberry
DOCKET NO.: 05-20068.001-R-1
PARCEL NO.: 05-35-400-023-0000

The parties of record before the Property Tax Appeal Board are Karen Ruberry, the appellant(s), by attorney Mitchell L. Klein, of Schiller Klein & McElroy of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 17,388
IMPR.: \$ 76,978
TOTAL: \$ 94,366

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 9,660 square foot parcel of land improved with a 93-year old, two-story, masonry, single-family dwelling containing 2,768 square feet of living area, two and two-half baths and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of three properties suggested as comparable and located within the subject's neighborhood. The properties are described as two-story, masonry or stucco, single-family dwellings with two, three or four baths, a fireplace, a full or partial, unfinished basement, and, for one property, air conditioning. The properties range: in age from 86 to 100 years; in size from 3,223 to 3,380 square feet of living area; and in improvement assessments from \$24.09 to \$25.13 per

square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$76,978 or \$27.81 per square foot of living area was disclosed. In support of the assessment, the board of review presented descriptions and assessment information on a total of four properties suggested as comparable and located within six blocks of the subject. The properties are described as two-story, masonry, single-family dwellings with two and one-half or three and one-half baths, air conditioning, one or two fireplaces, and a full basement with three finished. The properties range: in age from 43 to 56 years; in size from 2,495 to 4,226 square feet of living area; and in improvement assessment from \$27.78 to \$28.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the board of review's comparables have a different classification and are significantly new than the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted a total of seven properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1 and #3 and the board of review's comparable #4 are the most similar to the subject in size, construction, exterior construction, and location. These properties are masonry, two-story, single-family dwellings located near the subject. The properties range: in age from 44 to 100 years; in size from 2,495 to 3,380 square feet of living area and in improvement assessments from \$24.09 to \$28.50 per square foot of living area. In comparison, the subject's improvement assessment of \$27.81 per square foot of living area is within the range of these comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.

Docket No: 05-20068.001-R-1
