

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Lynette Van Dien Bertolotti
DOCKET NO.: 05-20158.001-R-1
PARCEL NO.: 01-26-207-009-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Lynette Van Dien Bertolotti, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a 20-year-old, class 2-78, two-story single-family dwelling of masonry construction containing 3,636 square feet of living area and located in Barrington Township, Cook County. The residence contains three and one-half bathrooms, a full basement, air conditioning, a fireplace and a three-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a half mile of the subject. These properties consist of two, class 2-78, two-story and one class 2-04, one-story single-family dwellings of masonry, frame and masonry or stucco construction and range in age from 21 to 26 years. The comparables have three or four bathrooms with some half-baths and two have full basements. All homes are air-conditioned and all have fireplaces. The comparables have two, three or four-car garages. The comparables contain between 6,293 and 7,477 square feet of living area and have improvement assessments ranging from \$79,374 to \$88,238 or from \$11.80 to \$13.05 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$63,813, or \$17.55 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story single-family dwellings of masonry construction and range in age from 10 to 18 years. The comparables contain three or four bathrooms with some half-baths,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$63,813
TOTAL: \$80,414

full or partial basements, two finished; all have air conditioning, fireplaces and three or four-car garages. The comparables range in size from 3,555 to 4,321 square feet of living area and have improvement assessments of between \$62,585 and \$79,974 or from \$17.60 to \$18.63 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds only the board's comparables two and three are similar to the subject at \$17.60 and \$18.63 per square foot. The subject's per square foot improvement assessment of \$17.55 is below these similar properties. The PTAB gives less weight to the remaining four comparables because they are less similar to the subject in living area or building classification. After considering both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
