

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Perry Moore
DOCKET NO.: 05-20170.001-R-1
PARCEL NO.: 10-11-322-008-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Perry Moore, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a 77-year-old, two-story, class 2-06 dwelling of masonry construction containing 3,451 square feet of living area and located in Evanston Township, Cook County. The residence includes two and one half bathrooms, a partial finished basement, air conditioning, fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a half mile of the subject. These properties consist of two-story, class 2-06 or two-story class 2-09 dwellings of stucco or masonry construction, and range in age from 79 to 96 years. The comparables include one or three bathrooms, all with half baths, full or partial basements, one finished, one with air conditioning and all with a fireplaces. Two comparables have two-car garages. The comparables contain between 3,300 and 5,628 square feet of living area and have improvement assessments ranging from \$51,806 to \$96,162 or from \$6.95 to \$15.70 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$73,525, or \$21.31 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable class 2-06 properties located within a quarter mile of the subject. The comparables consist of two-story dwellings of masonry construction. The comparables range in age from 72 to 76 years, with full basements, one

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR. \$71,193
TOTAL: \$88,079

finished. The comparables have two, three or four bathrooms with half baths; all have fireplaces and one or two-car garages. The comparable properties contain between 2,596 and 3,158 square feet of living area with improvement assessments of between \$57,300 and \$70,441 or from \$22.07 to \$22.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparable one and the appellant's comparable one are the only comparables similar to the subject with some differences in living area to be considered. These two properties have improvement assessments of \$15.70 and \$22.31 per square foot of living area. The subject's per square foot improvement assessment of \$20.63 is between these two properties. The PTAB gives less weight to the remaining five comparables because they are less similar to the subject living area or construction materials or building classification. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence of two similar properties is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
