

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Christopher Garvey
DOCKET NO.: 05-20241.001-R-1
PARCEL NO.: 15-11-404-021-0000

The parties of record before the Property Tax Appeal Board are Christopher Garvey, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is an 87-year old, two-story stucco dwelling containing 3,208 square feet of living area with a full, unfinished basement, central air conditioning, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located one block from the subject, and the others are located approximately one-half mile from the subject. The comparables are two-story frame or stucco dwellings that are 68 to 96 years old. One of the comparables has a full basement; two have unfinished basements; and one has a partial basement. Three comparables have central air conditioning and fireplaces. The dwellings have living areas that contain 2,615 to 3,860 square feet, and their improvement assessments range from \$11.42 to \$15.28 per square foot. The subject property has an improvement assessment of \$17.24 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	55,292
TOTAL:	\$	68,172

suggested comparable properties that are located in the same tax block as the subject. The comparables are two-story frame or stucco dwellings that are 77 to 88 years old. Two of the comparables have partial, unfinished basements, and one has a full, unfinished basement. Each comparable has a fireplace, and one has a two-car garage. The dwellings have living areas that contain 2,014 or 2,296 square feet and improvement assessments of \$19.38 to \$21.77 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables two, three, and four differed considerably in location from the subject, and comparable one differed significantly in age from the subject. The board of review's comparables differed considerably in size from the subject. As a result, none of the comparables was truly similar to the subject property in age, location, and physical characteristics to provide clear and convincing evidence that the property was inequitably assessed. However, the Board notes that all comparables had improvement assessments ranging from \$11.42 to \$21.77 per square foot. The subject's \$17.24 per square foot improvement assessment is within that range and appears to be supported after considering differences in physical and location attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
