

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Edward Graham  
DOCKET NO.: 05-20250.001-R-1  
PARCEL NO.: 16-19-215-009-0000

The parties of record before the Property Tax Appeal Board are Edward Graham, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is an 85-year old, one-story masonry dwelling containing 1,088 square feet of living area with a full, unfinished basement and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located two blocks from the subject; one is located approximately one-quarter mile from the subject; and the other two are located approximately one-half to three-quarter mile from the subject. The comparables are one-story masonry dwellings that are 81 to 87 years old. Three comparables have unfinished basements, and one has a full basement. Three comparables have central air conditioning. The dwellings have living areas that contain 1,165 to 1,308 square feet, and their improvement assessments range from \$8.47 to \$9.00 per square foot. The subject property has an improvement assessment of \$14.50 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three suggested comparable properties that are located approximately

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,757
IMPR.:	\$	9,781
TOTAL:	\$	14,538

one-quarter mile from the subject. The comparables are one-story masonry dwellings that are 47 to 78 years old. Two dwellings have full, unfinished basements, and one has a full, finished basement. Each comparable has a garage, either two-car or two and one-half car. The dwellings have living areas that contain 1,050 to 1,086 square feet and improvement assessments ranging from \$15.57 to \$16.61 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables two and three differed significantly in location from the subject and received reduced weight in the Board's analysis. The board of review's comparables differed considerably in age from the subject and also received reduced weight. The appellant's comparables one and four were the most similar to the subject in location, age, and physical characteristics. These comparables had improvement assessments of \$8.47 and \$9.00 per square foot. The subject's improvement assessment of \$14.50 per square foot falls well above the level established by these two comparables. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable properties contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
