

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Lunardon
DOCKET NO.: 05-20257.001-R-1
PARCEL NO.: 16-31-204-005-0000

The parties of record before the Property Tax Appeal Board are John Lunardon, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 61-year old, one and one-half story dwelling of frame and masonry construction containing 1,536 square feet of living area with a full, unfinished basement, central air conditioning, and a two car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties located in close proximity to the subject. The comparables are one and one-half story frame and masonry dwellings that are 80 to 86 years old. Two comparables have full basements and two comparables have unfinished basements. One comparable has central air conditioning. Their living areas are from 1,560 to 1,754 square feet in size, and have improvement assessments of \$10.36 to \$10.78 per square foot. The subject property has an improvement assessment of \$12.99 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties. Three comparables are located on the same block as the subject and one comparable is located in the same tax block as the subject. The comparable properties consist of one-story frame or stucco dwellings that are 81 years old with full, unfinished basements. Three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$19,953
TOTAL:	\$24,453

comparables have two car garages and one comparable has a one car garage. The dwellings contain 1,070 or 1,246 square feet of living area and have improvement assessments of \$13.93 to \$15.32 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

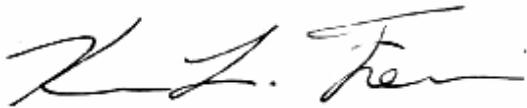

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables were significantly older than the subject. The board of review's comparables were also significantly older than the subject and differed from the subject in exterior construction. Comparables one, two, and three were also substantially smaller than the subject. As a result, none of the comparables was truly similar to the subject in physical characteristics to provide clear and convincing evidence that the property was inequitably assessed. However, the Board notes that all comparables had improvement assessments ranging from \$10.36 to \$15.32 per square foot. The subject's improvement assessment of \$12.99 per square foot is within that range and appears to be supported after considering differences in physical and location attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
