

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joseph Brunner
DOCKET NO.: 05-20282.001-R-1
PARCEL NO.: 10-11-104-030-0000

The parties of record before the Property Tax Appeal Board are Joseph Brunner, the appellant, by attorney Sonja R. Johnson with the law firm of Much Shelist in Chicago, and the Cook County Board of Review.

The subject property consists of a 77-year-old, two-story, single-family dwelling of frame and masonry construction containing 1,942 square feet of living area and located in Evanston Township, Cook County. Features of the home include two full bathrooms, a full-unfinished basement, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a three-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables offered by the appellant consist of two-story, single-family dwellings of masonry, frame or frame and masonry construction located within four blocks of the subject. The improvements range in size from 1,870 to 2,152 square feet of living area and range in age from 63 to 79 years. The comparables contain from one and one-half to two and one-half bathrooms, one or two fireplaces and a one-car or two-car garage. The improvement assessments range from \$18.63 to \$23.08 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,672
IMPR.: \$ 49,632
TOTAL: \$ 60,304

Subject only to the State multiplier as applicable.

area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$60,304. The subject's improvement assessment is \$49,632 or \$25.56 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,659 to 1,852 square feet of living area and range in age from 65 to 78 years. The comparables contain one and one-half, two or two and one-half bathrooms, an unfinished basement, one or two fireplaces and a one-car garage. The improvement assessments range from \$25.81 to \$26.56 per square foot of living area. In addition, the board submitted copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a two-page letter suggesting that the appellant's comparables are closer in size and location to the subject than the board's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables two and three and the board of review's comparables one and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$21.23 to \$26.56 per square foot of living area. The subject's per square foot improvement assessment of \$25.56 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or type of construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board

finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
