

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Scott Plapp
DOCKET NO.: 05-20563.001-C-1
PARCEL NO.: 16-31-114-007-0000

The parties of record before the Property Tax Appeal Board are Scott Plapp, the appellant, by attorney Terrence Kennedy, Jr. of the Law Offices of Terrence Kennedy, Jr. of Chicago and the Cook County Board of Review.

The subject property consists of an 80-year-old, one-story, masonry, 1,726 square foot class 5-91 office building situated on 3,125 square feet of land located in Berwyn Township Cook County.

The appellant's counsel submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable commercial properties. These properties consist of one-story class 5-17 properties of masonry construction and range in age from 53 to 87 years. The appellant submitted Assessor's printouts and 4905 buff cards for the comparables. The comparables range in size from 2,000 to 2,836 square feet. The comparables have total assessments ranging from \$25,961 to \$48,993 or from \$12.98 to \$17.28 per square foot of building area. The subject was purchased in March 2005 from father to son for \$80,000. The comparables are classified 5-17, one story commercial improvements, whereas, the subject, a one story commercial improvement is classified a commercial building over three stories. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted "Board of Review-Notes on Appeal" that disclosed the subject's total assessment of \$39,351 which reflects a market value of \$103,555 as factored by the Cook County Ordinance level of 38%. The board submitted evidence in support of its assessed valuation of the subject property. As evidence the board offered eight sales of commercial buildings ranging in size from 1,056 to 4,800 square feet that occurred

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,609
IMPR. \$26,391
TOTAL: \$35,000

Subject only to the State multiplier as applicable.

PTAB/TMcG. 5/08

between March 2001 and December 2006 for prices ranging from \$155,000 to \$535,000 or from \$55.92 to \$152.78 per square foot of land and building. No analysis and adjustment of the sales data was provided by the board. One of the sales is beyond the assessment date.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has overcome this burden.

The PTAB finds the appellant's comparables are similar to the subject but with some differences in building and lot size and age to be taken into consideration. These properties have total assessments ranging from \$12.98 to \$17.28 per square foot of building area. The subject's per square foot total assessment of \$17.81 is above this range of properties. After considering the differences, such as classification, and similarities in the suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is sufficient to cause a change in the subject's assessment.

The PTAB gives less weight to the board's sales evidence because it lacks analysis and a supported conclusion of value and the appeal was based on inequity. One of the sales is beyond the assessment date

As a result of this analysis, the PTAB finds that the appellant has adequately demonstrated that the subject property was overvalued and that a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
