

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Edwin J. Mantel
DOCKET NO.: 05-20589.001-R-1
PARCEL NO.: 15-25-309-029-0000

The parties of record before the Property Tax Appeal Board are Edwin J. Mantel, the appellant, by attorney Stephanie Park of Chicago and the Cook County Board of Review.

The subject property consists of a 7,820 square foot parcel improved with a 67-year-old, two-story style single-family dwelling of masonry construction. Containing 1,810 square feet of living area, the subject features one and one-half baths, a full finished basement, air conditioning, two fireplaces and a two-car garage. The subject is located in Riverside Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing twelve suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame, masonry, stucco, or frame and masonry construction from 64 to 93 years old. The comparables range in size from 1,632 to 2,000 square feet of living area with amenities such as one or two full baths; full finished or unfinished basements; and one or two car garages. Nine of the comparables also have half baths; three have air conditioning; and seven have single fireplaces. The comparables have improvement assessments ranging from \$16.12 to \$18.05 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$37,056, or \$20.47 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,256
IMPR.:	\$	37,056
TOTAL:	\$	43,312

Subject only to the State multiplier as applicable.

detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of two-story style single-family dwellings of masonry construction from 63 to 68 years old. These properties range in size from 1,440 to 1,809 square feet of living area with one or two full baths; full finished or unfinished basements; and one or two car garages. Three of the comparables also have half baths; one is air conditioned; and three have single fireplaces. The board's comparables have improvement assessments ranging from \$20.39 to \$22.50 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted 16 properties as comparable to the subject. The Board accords substantial weight to the appellant's comparables numbered 10 through 12 and the board of review's comparable number 1. The Board finds that these four properties are similar in size, construction type and amenities when compared to the subject. The Board places diminished weight on the remaining properties. The Board finds that the remaining properties differ to varying degrees in construction type, size and amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$20.47 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
