

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Erroll Oztekin
DOCKET NO.: 05-20622.001-R-1
PARCEL NO.: 01-27-308-006-0000

The parties of record before the Property Tax Appeal Board are Erroll Oztekin, the appellant, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a ten-year-old, two-story, average condition, single-family dwelling of masonry construction containing 6,738 square feet of living area and located in Barrington Township, Cook County. Features of the residence include five and one-half bathrooms, a partial-finished basement, air-conditioning, three fireplaces and a four-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, property characteristic printouts for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,509 to 12,784 square feet of living area and range in age from four to fifteen years. The comparables contain from three and one-half to six and one-half bathrooms, air-conditioning, a finished or full-unfinished basement, two or four fireplaces and a four-car attached garage. The improvement assessments range from \$12.43 to \$14.67 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 20,401
IMPR.: \$ 119,698
TOTAL: \$ 140,099

Subject only to the State multiplier as applicable.

area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$140,099. The subject's improvement assessment is \$119,698 or \$17.76 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,963 to 6,226 square feet of living area and range in age from 12 to 15 years. The comparables contain from three and one-half to five full bathrooms, a full-finished or unfinished basement, air-conditioning, two or four fireplaces and a multi-car garage. Two comparables enjoy above average condition. The improvement assessments range from \$18.37 to \$18.83 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a one-page letter highlighting various differences between the subject and the board of review's comparables.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of six properties similar to the subject in age and design but with variations in living area, condition and/or type of construction. These six properties have improvement assessments ranging from \$12.43 to \$18.83 per square foot of living area. The subject's per square foot improvement assessment of \$17.76 falls within the range established by these properties. The Board finds of the six comparables offered by the parties, three vary from the subject in living area, two vary in condition and one varies in exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
