

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Dolly Pruim
DOCKET NO.: 05-20872.001-R-1
PARCEL NO.: 19-31-323-012-0000

The parties of record before the Property Tax Appeal Board are Dolly Pruim, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 40-year old, multi-level frame and masonry dwelling containing 1,039 square feet of living area with a partial, finished basement, central air conditioning, and a two and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located two blocks from the subject; two are located approximately 0.4 mile from the subject; and one is located approximately one and one-half mile from the subject. The comparables are multi-level frame and masonry dwellings that are 39 to 45 years old. Two of the comparables have partial basements, and two do not have basements. Two comparables have central air conditioning. The dwellings have living areas that contain 1,196 to 1,293 square feet, and their improvement assessments range from \$13.78 to \$14.78 per square foot. The subject property has an improvement assessment of \$18.15 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	2,100
IMPR.:	\$	18,862
TOTAL:	\$	20,962

Subject only to the State multiplier as applicable.

suggested comparable properties. Two are located in the same tax block as the subject, and the other is in close proximity of the subject. The comparables are multi-level frame and masonry dwellings that are 34 or 41 years old. Each comparable has a partial, finished basement and a two-car garage. Two comparables have central air conditioning. The dwellings have living areas that contain 1,008 or 1,111 square feet and improvement assessments ranging from \$18.16 to \$18.67 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The appellant's comparables one, two, and four differed in location from the subject, and comparables one and three differed in foundation. As a result, the appellant's comparables received reduced weight in the Board's analysis. The board of review's comparables were the most similar to the subject in age, location, and physical characteristics. These comparables had improvement assessments of \$18.16 to \$18.67 per square foot that support the subject's improvement assessment of \$18.15 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record, and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
