

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles F. Willes  
DOCKET NO.: 05-21526.001-R-1  
PARCEL NO.: 02-17-403-027-0000

The parties of record before the Property Tax Appeal Board are Charles F. Willes, the appellant(s), by attorney Michael E. Crane, of Crane & Norcross of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 9,824  
**IMPR.:** \$ 86,139  
**TOTAL:** \$ 95,963

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 61,402 square foot parcel improved with a newly-constructed, two-story, single-family dwelling of masonry construction containing 5,256 square feet of living area and located in Palatine Township, Cook County. Features of the residence include three full bathrooms, two half-baths, a full-unfinished basement, central air-conditioning, two fireplaces and a three and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the

assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of masonry or stucco construction with the same neighborhood code as the subject. The improvements range in size from 5,373 to 6,911 square feet of living area and range in age from 14 to 63 years. The comparables contain three and one-half or five full bathrooms, two or five fireplaces, central air-conditioning, a finished or unfinished basement and a three-car attached garage. The improvement assessments range from \$12.52 to \$14.19 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$95,963. The subject's improvement assessment is \$86,139 or \$16.39 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,652 to 7,900 square feet of living area and range in age from one to 14 years. The comparables contain from three to six full bathrooms, a full-finished or unfinished basement, one or two fireplaces, central air-conditioning and a multi-car attached garage. The improvement assessments range from \$16.39 to \$17.17 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the

assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board's comparables one and two are the most similar properties to the subject to carry weight. These two properties are similar to the subject in size, age, amenities, design and location and have improvement assessments of \$16.39 per square foot of living area. The subject's per square foot improvement assessment of \$16.39 indicates that the subject is treated equitably when compared to similar properties. The Board finds the remaining comparables less similar to the subject in size, age and/or exterior construction and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted is insufficient to effect a change in the subject's assessment and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
