

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Vijayamma Kaimal
DOCKET NO.: 05-21585.001-R-1
PARCEL NO.: 10-18-306-039-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Vijayamma Kaimal, the appellant, by attorney Michael Elliott of Elliott and associates of Des Plaines and the Cook County Board of Review (board).

The subject property consists of a one-year-old, two-story single-family dwelling of masonry construction containing 4,211 square feet of living area and located in Niles Township, Cook County. The residence contains three and one-half bathrooms, a full basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within one and one half miles of the subject. These properties consist of two-story single-family dwellings of masonry or frame and masonry construction and range in age from four to 55 years. The comparables have two, three or five bathrooms with some half-baths and two have full basements, one finished. The homes are air-conditioned; two have fireplaces and two have two-car garages. The comparables contain between 4,000 and 4,336 square feet of living area and have improvement assessments ranging from \$45,329 to \$52,263 or from \$11.02 to \$12.68 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$66,823, or \$15.87 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a half mile of the subject. The comparables consist of two-story single-family dwellings of masonry construction and are one year old. The comparables contain three and one half bathrooms, with full basements; all have air conditioning, fireplaces and each has a two-car garage.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,630
IMPR.: \$66,823
TOTAL: \$72,453

Subject only to the State multiplier as applicable.

PTAB/TMcG.

The comparables range in size from 4,211 to 4,389 square feet of living area. The three comparables have improvement assessments of between \$66,823 and \$69,648 or \$15.87 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds the board's three comparables and the appellant's comparable one are the comparables most similar to the subject. These properties have improvement assessments ranging from \$11.02 to \$15.87 per square foot of living area. The subject's per square foot improvement assessment of \$15.87 is equal to this range of properties. The PTAB gives less weight to the appellant's comparables two and three because they are less similar to the subject in age and are situated on much larger lots. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
