

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Gordon Bethards
DOCKET NO.: 05-21878.001-R-1
PARCEL NO.: 09-26-204-067-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Gordon Bethards, the appellant, by attorney Joseph G. Kuser of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property consists of a 30-year-old, one and part two-story, class 2-04 dwelling of masonry construction containing 4,032 square feet of living area and located in Maine Township, Cook County. The residence includes three and one half bathrooms, a finished partial basement, air conditioning, fireplaces and a two-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a quarter mile of the subject. These properties consist of two story, class 2-09, 2-06 and 2-08 dwellings of frame, frame and masonry or masonry construction, and range in age from two to 93 years. The comparables include three, four or five bathrooms with half baths, full basement, two finished, air conditioning and fireplaces. The comparables have two three or four-car garages. The comparables contain between 3,012 and 5,282 square feet of living area and have improvement assessments ranging from \$35,140 to \$61,502 or from \$9.97 to \$11.67 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$76,827, or \$19.05 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered four suggested comparable class 2-04 properties located within a block of the subject. The comparables consist of one-story or one and part two-story dwellings of masonry construction. The comparables range in age from 40 to 70 years, with full or partial basements, two finished. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

TOTAL: \$93,540

have two, three or four bathrooms, one with a half bath, all with air conditioning, fireplaces and two-car garages. The comparable properties contain between 3,198 and 3,375 square feet of living area with improvement assessments of between \$16,450 and \$73,596 or from \$19.83 to \$21.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds none of the submitted seven comparables are similar enough to the subject to demonstrate assessment equity or inequity. These properties, as they are, have improvement assessments ranging from \$9.97 to \$21.82 per square foot of living area. The subject's per square foot improvement assessment of \$19.05 is within this range of properties. The PTAB gives little weight to the suggested comparables because they are less similar to the subject in construction materials or living area or age or building classification. After considering both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

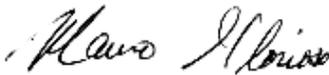

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
