

**Final Administrative Decision of the
State of Illinois
PROPERTY TAX APPEAL BOARD**

APPELLANT: Chestinne Nowak
DOCKET NO.: 05-22004.001-R-1
PARCEL NO.: 28-03-302-026-0000

The parties of record before the Property Tax Appeal Board are Chestinne Nowak, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,644
IMPR.: \$ 24,856
TOTAL: \$ 29,500

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 28-year-old, three-story multi-family dwelling of masonry construction containing 5,280 square feet of living area with six full bathrooms. The subject is built on slab and located in Bremen Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant provided three suggested comparable properties consisting of two-story, multi-family dwellings of frame, masonry or frame and masonry construction located within 2.4 miles of the subject. The improvements range in size from 4,400 to 5,800 square feet of living area and range in age from 11 to 102 years. The comparables contain four, five or six full bathrooms. One comparable contains a full-finished basement apartment. The improvement assessments range from \$2.19 to \$3.93 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$29,500. The subject's improvement assessment is \$24,856 or \$4.71 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, 27 or 28-year-old, 5,280 square foot, multi-family dwellings of masonry construction located on the same street and block as the subject. The comparables contain six full bathrooms. The improvement assessments range from \$6.38 to \$6.49 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, location, amenities, exterior construction and age and have improvement assessments ranging from \$6.38 to \$6.49 per square foot of living area. The subject's per square foot improvement assessment of \$4.71 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size, design, exterior construction, age and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
