

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Malgorzata Rola
DOCKET NO.: 05-22044.001-R-1
PARCEL NO.: 03-05-207-019-0000

The parties of record before the Property Tax Appeal Board are Malgorzata Rola, the appellant, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 46-year-old, one-story, single-family dwelling of frame and masonry construction containing 930 square feet of living area and located in Wheeling Township, Cook County. Features of the residence include one full bathroom, a full-unfinished basement, air-conditioning and a one-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story, 45-year-old, single-family dwellings of frame construction located within four blocks of the subject. The improvements range in size from 864 to 930 square feet of living area. The comparables contain one full bathroom. Two comparables contain an unfinished basement and one comparable has a one-car attached garage. The improvement assessments range from \$17.70 to \$18.99 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$23,410. The subject's improvement assessment is \$18,922 or \$20.35 per

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,488
IMPR.: \$ 18,922
TOTAL: \$ 23,410

Subject only to the State multiplier as applicable.

square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with one-story, 44-year-old, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements contain 913 square feet of living area. The comparables contain one full bathroom, a full-unfinished basement and a two-car garage. The improvement assessments are \$21.47 per square foot of living area. The board's evidence disclosed that the subject sold in June 2005 for a price of \$245,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board's two comparables are the most similar properties to the subject to carry weight. The appellant's comparables differ from the subject in size of living area, exterior construction and/or amenities and the Board gives these properties less weight. The two similar properties have improvement assessments of \$21.47 per square foot of living area. The subject's per square foot improvement assessment of \$20.35 is below these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

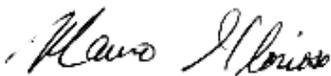

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
