

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Angelo Falleroni
DOCKET NO.: 05-22416.001-R-1
PARCEL NO.: 10-32-130-044-0000

The parties of record before the Property Tax Appeal Board are Angelo Falleroni, the appellant, by attorney Howard W. Melton of Chicago, and the Cook County Board of Review.

The subject property consists of a 45-year-old, multi-level, single-family dwelling of frame and masonry construction containing 1,523 square feet of living area and located in Niles Township, Cook County. Features of the residence include two and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of masonry or frame and masonry construction located on the same street and within one block of the subject. The improvements range in size from 1,381 to 1,762 square feet of living area and range in age from 37 to 46 years. The comparables contain one, two or two and one-half bathrooms and a one-car or two-car attached garage. Three comparables contain a finished or unfinished basement, three comparables have air-conditioning and three comparables contain one or two fireplaces. The improvement assessments range from \$16.50 to \$17.39 per square foot of living area.

At hearing, the appellant's attorney argued that although the appellant's comparables are one story in design they are similar to the subject in value. The appellant's attorney argued there is no validity that split-level type dwellings are more valuable than one-story type residences. Based on the evidence submitted,

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,333
IMPR.: \$ 34,748
TOTAL: \$ 44,081

Subject only to the State multiplier as applicable.

the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$44,081. The subject's improvement assessment is \$34,748 or \$22.82 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,012 to 1,528 square feet of living area and range in age from 42 to 46 years. The comparables contain one and one-half, two and one-half or three full bathrooms, a partial-finished basement, air-conditioning, a fireplace and a two-car attached garage. The improvement assessments range from \$24.09 to \$27.67 per square foot of living area.

At hearing, the board's representative stated that the comparables provided by the board of review have the same classification and design as the subject and suggest the subject is fairly assessed. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar overall to the subject in improvement size, age, amenities, design and location and have improvement assessments ranging from \$24.09 to \$27.67 per square foot of living area. The subject's improvement assessment of \$22.82 per square foot of living area is below this range. The appellant's comparables are accorded less weight because they differ from the subject in design. The appellant's attorney argued that one-story style dwellings are similar to split-level type residences in value. The Board finds this argument unpersuasive and not supported by the evidence in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
