

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bert Logiudice
DOCKET NO.: 05-22527.001-R-1
PARCEL NO.: 16-07-400-018-0000

The parties of record before the Property Tax Appeal Board are Bert Logiudice, the appellant(s), by attorney Michael E. Crane, of Crane & Norcross of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,749
IMPR.: \$ 34,600
TOTAL: \$ 43,349

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 8,750 square foot parcel improved with a 103-year-old, two-story style multi-family dwelling of frame construction. Containing 2,166 square feet of living area, the subject features two apartments and a two-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded

assessment neighborhood as the subject. These properties consist of two-story style multi-family dwellings of frame or masonry construction ranging from 97 to 118 years old. The comparables range in size from 3,202 to 5,928 square feet of living area with from two to six apartments; two of the comparables also have garages. The comparables have improvement assessments ranging from \$10.16 to \$14.32 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$38,596, or \$17.82 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same assessment neighborhood as the subject. The comparables consist of one multi-family dwelling and three single-family dwellings ranging in age from 102 to 118 years old. The comparables are two story style dwellings of frame construction. These properties range in size from 2,095 to 2,917 square feet of living area. The multi-family dwelling has two apartments. The comparables have improvement assessments ranging from \$17.64 to \$19.51 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board finds that the appellant's comparables and the board of review's comparable numbered one

are the most similar to the subject in the record. These improvements are multi-family dwellings similar in age and amenities when compared to the subject. The Board accords these properties the most weight. The Board finds that the board of review's remaining properties are not similar to the subject. These properties are single-family dwelling whereas the subject is a multi-family dwelling. The Board accords these properties little weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$17.82 is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.
