

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Milos Dedovic  
DOCKET NO.: 05-22626.001-R-1  
PARCEL NO.: 02-19-321-081-0000

The parties of record before the Property Tax Appeal Board are Milos Dedovic, the appellant, by attorney Stephanie Park of Chicago, and the Cook County Board of Review.

The subject property consists of a 12,617 square foot parcel improved with a 26-year-old, two-story style single-family dwelling of frame construction sited on a concrete slab foundation. Containing 2,060 square feet of living area, the subject improvement features two and one-half baths, air conditioning, and a two-car garage. The subject is located in Palatine Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing six suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame or frame and masonry construction from 18 to 34 years old. The comparables range in size from 2,040 to 2,236 square feet of living area with amenities such two or three full baths and two car garages. Four of the comparables have full or partial unfinished basements; five have additional half-baths; four are air conditioned; and one has a fireplace. The comparables have improvement assessments ranging from \$9.13 to \$10.55 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$23,668, or \$11.49 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	8,074
IMPR.:	\$	20,600
TOTAL:	\$	28,674

Subject only to the State multiplier as applicable.

detailing three suggested comparable properties located in the same coded assessment neighborhood as the subject. The comparables consist of 25 or 27 year old, two-story style single-family dwellings of frame construction. These properties range in size from 1,928 to 2,355 square feet of living area and have improvement assessments ranging from \$11.60 to \$12.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant overcome this burden.

The Property Tax Appeal Board finds that the parties submitted nine properties as comparable to the subject. The Board places the most weight on appellant's comparables numbered one and two and the board of review comparable numbered one. The Board finds that these three properties are the most similar to the subject in terms of size and amenities. Further, the Board finds that one of these improvements is slightly inferior in age; one is slightly superior in age when compared to the subject. The Board accords diminished weight on the remaining improvements as they differ to varying degrees in amenities and size when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
