

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Eddie Parker  
DOCKET NO.: 05-22689.001-R-1  
PARCEL NO.: 31-03-209-014-0000

The parties of record before the Property Tax Appeal Board are Eddie Parker, the appellant, and the Cook County Board of Review.

The subject property consists of a nine-year-old, multi-level, single-family dwelling of frame construction containing 1,445 square feet of living area and located in Rich Township, Cook County. Features of the home include one and one-half bathrooms, a partial-finished basement, central air-conditioning, a fireplace and a two-car attached garage.

The appellant appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page letter as well as photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the three suggested comparables consist of multi-level, 13-year-old, single-family dwellings of frame construction located within one block of the subject. The improvements contain 1,124 or 1,302 square feet of living area. The comparables contain one and one-half bathrooms, air-conditioning, a fireplace and a two-car attached garage. Two comparables contain a partial-finished basement. The improvement assessments range from \$9.80 to \$11.24 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$17,042. The subject's improvement assessment is \$13,874 or \$9.60 per

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	13,874
TOTAL:	\$	17,042

square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, nine-year-old, single-family dwellings of frame construction with the same neighborhood code as the subject. Two comparables are located on the same street as the subject. The improvements contain 1,445 square feet of living area. The comparables contain one and one-half bathrooms, a partial-finished basement, air-conditioning, a fireplace and a two-car attached garage. The improvement assessments are \$9.80 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age and location. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Property Tax Appeal Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments of \$9.60 per square foot of living area. The subject's per square foot improvement assessment of \$9.60 indicates that the subject is treated equitably when compared to similar properties. The Board finds appellant's comparables less similar to the subject in improvement size, age and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
