

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Maureen & David Kendziera
DOCKET NO.: 05-24292.001-R-1
PARCEL NO.: 17-05-412-025-0000

The parties of record before the Property Tax Appeal Board are Maureen & David Kendziera, the appellants, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 113-year-old, three-story, multi-family dwelling of masonry construction containing 3,157 square feet of living area with four full bathrooms. The subject is built with crawl space and located in West Chicago Township, Cook County.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted a brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables consist of two-story or three-story, multi-family dwellings of masonry construction located within close proximity to the subject. The improvements range in size from 3,125 to 4,752 square feet of living area and range in age from 105 to 116 years. The comparables contain from three to six full bathrooms. Two comparables contain a finished or unfinished basement. The improvement assessments range from \$6.53 to \$7.76 per square foot

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,089
IMPR.: \$ 28,711
TOTAL: \$ 32,800

Subject only to the State multiplier as applicable.

of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$32,800. The subject's improvement assessment is \$28,711 or \$9.09 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, multi-family dwellings of masonry construction located within seven blocks of the subject. The improvements range in size from 2,628 to 2,853 square feet of living area and range in age from 105 to 116 years. The comparables contain three full bathrooms. The improvement assessments range from \$11.10 to \$12.43 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the appellants' comparable three and the board of review's comparables one, three and four to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$7.51 to \$11.30 per square foot of living area. The subject's per square foot improvement assessment of \$9.09 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
