

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Michael & Linda Unger  
DOCKET NO.: 05-24303.001-R-1  
PARCEL NO.: 13-36-301-011-0000

The parties of record before the Property Tax Appeal Board are Michael & Linda Unger, the appellants, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 110-year-old, two-story, multi-family dwelling of frame construction containing 2,124 square feet of living area with two full bathrooms. The subject is built on slab and located in West Chicago Township, Cook County.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellants' documents, the four suggested comparables offered by the appellants consist of two-story, multi-family dwellings of frame, masonry or frame and masonry construction located within two blocks of the subject. The improvements range in size from 2,172 to 3,416 square feet of living area and range in age from 96 to 112 years. The comparables contain two or four full bathrooms and a one-car or two-car detached garage. One comparable contains a full-finished basement. The improvement assessments range from \$6.06 to \$8.09 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	3,238
IMPR.:	\$	20,661
TOTAL:	\$	23,899

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$23,899. The subject's improvement assessment is \$20,661 or \$9.73 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of frame construction located within three blocks of the subject. The improvements range in size from 1,824 to 1,840 square feet of living area and range in age from 95 to 116 years. The comparables contain two full bathrooms. One comparable contains an unfinished basement. The improvement assessments range from \$10.07 to \$11.59 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. These eight properties have improvement assessments ranging from \$6.06 to \$11.59 per square foot of living area. The subject's per square foot improvement assessment of \$9.73 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than four of the eight properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
