

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Sickel
DOCKET NO.: 05-24412.001-R-1
PARCEL NO.: 18-03-312-031-0000

The parties of record before the Property Tax Appeal Board are John Sickel, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 31-year old, one-story style dwelling of masonry construction containing 1,211 square feet of living area with a full, unfinished basement and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The comparables are one or one and one-half story frame or masonry dwellings that are between 49 and 107 years old. The comparables contain from 1,238 to 1,500 square feet of living area and have improvement assessments ranging from \$8.19 to \$10.40 per square foot. The subject property has an improvement assessment of \$16.78 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing three suggested comparable properties. The comparable properties consist of one-story masonry dwellings that are 28 to 57 years old. The dwellings contain 943 or 1,175 square feet of living area and have improvement assessments ranging from \$17.16 to \$17.41 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,824
IMPR.:	\$	20,318
TOTAL:	\$	25,142

Subject only to the State multiplier as applicable.

Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. Three of the appellant's comparables were substantially older than the subject, two differed in construction style and three differed from the subject in exterior construction. The board of review's comparable one was substantially older and smaller than the subject. Thus, these comparables received reduced weight in the Board's analysis. Two of the comparables submitted by the board of review were similar in construction style, exterior construction, age and size to the subject property. They had improvement assessments of \$17.16 and \$17.38 per square foot. The subject's improvement assessment of \$16.78 per square foot is supported by these comparable properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
