

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: David Hermann  
DOCKET NO.: 05-24563.001-R-1  
PARCEL NO.: 18-08-303-006-0000

The parties of record before the Property Tax Appeal Board are David Hermann, the appellant(s), by attorney Joseph G. Kusper, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 12,388  
**IMPR.:** \$ 16,229  
**TOTAL:** \$ 28,617

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 16,300 square foot parcel improved with a 53-year-old, one-story style single-family dwelling of frame construction. Containing 1,145 square feet of living area, the subject features a partial unfinished basement, one and one-half baths, a fireplace and a one-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing three suggested comparable properties located in the same coded

assessment neighborhood as the subject, two of which are on the same street as the subject. These properties consist of one-story style single-family dwellings of frame or masonry construction from 49 to 56 years old. The comparables range in size from 1,566 to 2,029 square feet of living area with amenities such as two full baths; one has a full unfinished basement; two are central air conditioned; one has a fireplace and two have garages. The comparables have improvement assessments ranging from \$8.51 to \$11.38 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$16,229, or \$14.17 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject, two of which are on the same street as the subject. The comparables consist of one-story style single-family dwellings of frame construction ranging from 53 to 55 years old. These properties range in size from 1,025 to 1,265 square feet of living area and have amenities such as one full bath and one car garages; one also has an additional half bath. The comparables have improvement assessments ranging from \$15.29 to \$18.88 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted seven properties as comparable to the subject. The Board finds that the appellant's comparables one and two and the board of review's comparables three and four are the most similar to the subject in location and construction type when compared to the subject. However the Board finds that two of these improvements are superior in size and two are inferior in size and two are inferior in amenities when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$14.17 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.
