

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ira Taylor
DOCKET NO.: 05-24578.001-R-1
PARCEL NO.: 18-07-116-029-0000

The parties of record before the Property Tax Appeal Board are Ira Taylor, the appellant(s), by attorney Joseph G. Kuser, of Storino Ramello & Durkin of Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 28,562
IMPR.: \$ 81,029
TOTAL: \$ 109,591

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of an 18,791 square foot parcel improved with a 22-year-old, one and one-half story, single-family dwelling of frame and masonry construction containing 3,893 square feet of living area and located in Lyons Township, Cook County. Features of the residence include three and one-half bathrooms, a partial-unfinished basement, central air-conditioning, two fireplaces and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the

appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story, single-family dwellings of stucco, masonry or frame and masonry construction located within several blocks of the subject. The improvements range in size from 4,083 to 5,752 square feet of living area and range in age from seven to 49 years. The comparables contain three and one-half or four and one-half bathrooms, central air-conditioning, one or three fireplaces and a multi-car attached garage. Two comparables have a full-finished or unfinished basement. The improvement assessments range from \$13.74 to \$16.93 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$109,591. The subject's improvement assessment is \$81,029 or \$20.81 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story or one and one-half story, single-family dwellings of frame, masonry or frame and masonry construction located within one block of the subject. The improvements range in size from 2,639 to 3,196 square feet of living area and range in age from 22 to 46 years. The comparables contain two and one-half, three or three and one-half bathrooms, a finished or unfinished basement, central air-conditioning and a multi-car attached garage. Two comparables have multiple fireplaces. The improvement assessments range from \$21.55 to \$24.38 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities

within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of six properties similar to the subject in design, amenities and location but with many variations in size, exterior construction and/or age. These six properties have improvement assessments ranging from \$13.74 to \$24.38 per square foot of living area. The subject's per square foot improvement assessment of \$20.81 falls within the range established by these properties. The Board finds of the six properties offered for comparison, four vary significantly from the subject in size, four vary in exterior construction and three are inferior to the subject in age. After considering adjustments for size, exterior construction and age, as well as other differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by the parties does not support a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
