

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Curt Horvath
DOCKET NO.: 05-24650.001-R-1
PARCEL NO.: 05-28-111-025-0000

The parties of record before the Property Tax Appeal Board are Curt Horvath, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review.

The subject property consists of a 79-year-old, two-story, single-family dwelling of masonry construction containing 1,950 square feet of living area and located in New Trier Township, Cook County. Features of the residence include two full bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,959 to 2,132 square feet of living area and range in age from 64 to 82 years. The comparables contain two and one-half bathrooms and a fireplace. Three comparables contain a full-finished or unfinished basement, two comparables have air-conditioning and three comparables contain a one-car or two-car attached garage. The improvement assessments range from \$22.00 to \$24.55 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,936
IMPR.: \$ 50,890
TOTAL: \$ 67,826

Subject only to the State multiplier as applicable.

PTAB/rfd7107

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$67,826. The subject's improvement assessment is \$50,890 or \$26.10 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,932 to 2,108 square feet of living area and range in age from 63 to 80 years. The comparables contain two and one-half bathrooms, a full-finished or unfinished basement, one or two fireplaces and a two-car garage. Two comparables have air-conditioning. The improvement assessments range from \$26.14 to \$28.47 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The Board finds these properties similar to the subject in improvement size, age, amenities, location, exterior construction and location and have improvement assessments ranging from \$22.00 to \$28.47 per square foot of living area. The subject's per square foot improvement assessment of \$26.10 falls within the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

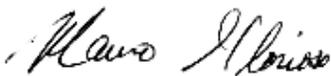

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
