

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: So Hyang Kang  
DOCKET NO.: 05-24660.001-R-1  
PARCEL NO.: 04-27-109-007-0000

The parties of record before the Property Tax Appeal Board are So Hyang Kang, the appellant(s), by attorney Stephanie Park, of Stephanie Park, P.C. of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 9,141  
**IMPR.:** \$ 65,574  
**TOTAL:** \$ 74,715

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 6,530 square foot parcel improved with a four-year-old, three-story multi-family dwelling of frame construction containing 3,545 square feet of living area. Features of the building include three and one-half bathrooms, central air-conditioning, a fireplace and a three-car detached garage. The subject is built on slab and located in Northfield Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of three-story, four-year-old, 3,545 square foot, multi-family dwellings of frame

construction located within the subject's neighborhood. The comparables contain three and one-half bathrooms, central air-conditioning, a fireplace and a two-car or three-car detached garage. Three comparables have a full-unfinished basement. The improvement assessments range from \$14.79 to \$14.96 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$74,715. The subject's improvement assessment is \$65,674 or \$18.50 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with three-story, four-year-old, 3,545 square foot, multi-family dwellings of frame construction with the same neighborhood code as the subject. The comparables contain two and one-half or three and one-half bathrooms, central air-conditioning, a fireplace and a three-car detached garage. Two comparables have a full-unfinished basement. The improvement assessments range from \$18.52 to \$19.20 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. The Board finds these seven properties similar to the subject in improvement size, amenities, age, exterior construction and location and have improvement assessments ranging from \$14.79 to \$19.20 per square foot of living area. The subject's per square foot improvement assessment of \$18.50 falls within the range established by these properties. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
