

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: A. Berkner  
DOCKET NO.: 05-25000.001-R-1  
PARCEL NO.: 06-25-114-016-0000

The parties of record before the Property Tax Appeal Board are A. Berkner, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a 6,720 square foot parcel improved with a 16-year-old, two-story style single-family dwelling of frame construction. Containing 1,434 square feet of living area, the subject features one full bath, a partial basement, air conditioning, and a two-car garage. The subject is located in Hanover Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of frame construction from 17 to 27 years old. The comparables range in size from 1,632 to 1,748 square feet of living area with amenities such one or two and one-half baths and air conditioning; one has a partial basement and two have fireplaces. The comparables have improvement assessments ranging from \$9.72 to \$9.97 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$17,608, or \$12.28 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located on the same street and block as the subject. The comparables consist of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	17,608
TOTAL:	\$	21,640

16-year old, two-story style single-family dwellings of frame construction. These properties contain 1,434 square feet of living area and have amenities such as one full bath, partial basements, air conditioning and two-car garages. The comparables have improvement assessments of \$12.28 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. The Board accords substantial and primary weight to the properties submitted by the board of review. The Board finds that the board of review's comparables are the same size, age and construction type as the subject and are located on the same street and block as the subject. Further, the Board finds that these properties have amenities commensurate with the subject's amenities. The Board accords the appellant's properties little weight. The Board finds that the appellant's comparables overall differ from the subject in size, age, location, and amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$12.28 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
