

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Gerry Brown
DOCKET NO.: 05-25002.001-R-1
PARCEL NO.: 06-16-104-013-0000

The parties of record before the Property Tax Appeal Board are Gerry Brown, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a 45,084 square foot parcel improved with a 17-year-old, two-story style single-family dwelling of frame and masonry construction. Containing 3,335 square feet of living area, the subject features two and one-half baths, a full basement, a fireplace and a two-car garage. The subject is located in Hanover Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of ten-year old, two-story style single-family dwellings of frame and masonry construction. The comparables range in size from 3,010 to 3,513 square feet of living area with amenities such two and one-half baths, partial basements, air conditioning, and fireplaces. The comparables have improvement assessments ranging from \$8.66 to \$9.05 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$38,781, or \$11.63 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located within two blocks of the subject. The comparables consist of two-story style single-family dwellings of frame or frame and masonry

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

| | | |
|--------|----|--------|
| LAND: | \$ | 10,820 |
| IMPR.: | \$ | 38,781 |
| TOTAL: | \$ | 49,601 |

Subject only to the State multiplier as applicable.

construction from five to twenty-five years old. These properties range in size from 2,654 to 3,566 square feet of living area and have amenities such as two or three full baths, full basements, air conditioning, fireplaces and two or three car garages. The comparables have improvement assessments ranging from \$11.87 to \$12.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. The Board finds that six of the comparables are superior in age; four are inferior in amenities; four are superior in size; one is inferior in size; and three are inferior in construction type when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$11.63 is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
