

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert W. Buchanan
DOCKET NO.: 05-25201.001-R-1
PARCEL NO.: 05-30-201-023-0000

The parties of record before the Property Tax Appeal Board are Robert W. Buchanan, the appellant, by attorney Michael E. Crane of Crane and Norcross of Chicago and the Cook County Board of Review.

The subject property consists of a 48-year-old, two-story dwelling of frame and masonry construction containing 3,134 square feet of living area and located in New Trier Township, Cook County. The residence includes two full and one half bathroom, a finished partial basement, air conditioning, a fireplace and garage space.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story dwellings of frame and masonry or frame construction and range in age from 30 to 37 years. The comparables include two or three bathrooms, two with half baths and full or partial basements, one finished; all homes have air conditioning, two with fireplaces and all properties have garage space. The properties contain between 2,272 and 2,580 square feet of living area and have improvement assessments ranging from \$28,911 to \$46,612 or from \$12.72 to \$18.45 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$76,213, or \$24.32 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable properties located within a block of the subject. The comparables consist of two-story dwellings of frame or frame and masonry construction. The comparables range in age from 42 to 49 years. Three comparables have full or partial basements, one finished and three bathrooms

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 53,473
IMPR. \$ 76,213
TOTAL: \$129,686

with half baths. All homes have air conditioning; all have fireplaces and all sites have two-car garages. The comparable properties contain between 3,252 and 3,592 square feet of living area with improvement assessments of between \$78,985 and \$87,243 or from \$24.29 to \$24.32 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds the board's three comparables are the comparables most similar to the subject. These properties have improvement assessments ranging from \$24.29 to \$24.32 per square foot of living area. The subject's per square foot improvement assessment of \$24.32 is within this range of properties. The PTAB gives less weight to the appellant's three comparables because they are less similar to the subject in living area. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject property was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

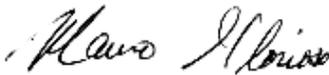

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
