

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Patrick Dolan
DOCKET NO.: 05-25355.001-R-1 & 05-25355.002-R-1
PARCEL NO.: 24-25-413-025-0000 & 24-25-413-026-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Patrick Dolan, the appellant, by attorney Lisa A. Marino of Lisa A. Marino and Associates of Chicago and the Cook County Board of Review (board).

The subject property is prorated over two lots and consists of a 35-year-old, two-story, four-unit apartment building of masonry construction containing 3,788 square feet of building area and located in Worth Township, Cook County. The apartment property includes four bathrooms and no basement.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within three blocks of the subject. These properties consist of two-story apartment buildings of masonry, stucco or frame construction and range in age from 77 to 99 years. The comparables include two, three or four bathrooms, one with a half bath and full basements. The number of apartment units was not disclosed. The comparables contain between 2,331 and 4,656 square feet of building area and have improvement assessments ranging from \$8,576 to \$19,389 or from \$3.60 to \$4.15 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$17,614, or \$4.65 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story, two or three-unit buildings of masonry construction. The comparables range in age from 29 to 107 years and have full basements, one an apartment. They have two or three bathrooms and two-car garages. The comparable properties contain between 2,096 and 3,427 square feet of building area with improvement

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO.	PROPERTY NO.	LAND	IMPR.	TOTAL
05-25355.001-R-1	24-25-413-025	\$1,805	\$8,807	\$10,612
05-25355.002-R-1	24-25-413-026	\$1,805	\$8,807	\$10,612

assessments ranging from \$11,772 to \$19,991 or from \$5.56 to \$5.83 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The PTAB finds the board's comparable one (\$5.83 p/sf) is similar to the subject. The PTAB finds the remaining six comparables are less similar to the subject in living area, in age and in construction materials. The seven comparables taken together have improvement assessments ranging from \$3.60 to \$5.83 per square foot of living area. The subject's per square foot improvement assessment of \$4.65 is within this range of properties. After considering the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject apartment building was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
