

**Final Administrative Decision of the
State of Illinois
PROPERTY TAX APPEAL BOARD**

APPELLANT: Jose Gonzalez
DOCKET NO.: 05-25370.001-R-1
PARCEL NO.: 25-31-347-012-0000

The parties of record before the Property Tax Appeal Board are Jose Gonzalez, the appellant(s), by attorney Lisa A. Marino, of Marino & Assoc., PC; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,118
IMPR.: \$ 10,452
TOTAL: \$ 14,570

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 56-year-old, one and one-half story, single-family dwelling of masonry construction containing 1,305 square feet of living area and located in Calumet Township, Cook County. Features of the residence include two full bathrooms, a full-unfinished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story or one and one-half story, single-family dwellings of frame construction located within eight blocks of the subject. The improvements range in size from 1,448 to 1,628

square feet of living area and range in age from 92 to 117 years. The comparables contain one or two full bathrooms and a full-finished or unfinished basement. One comparable has air-conditioning. The improvement assessments range from \$6.75 to \$7.49 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$14,570. The subject's improvement assessment is \$10,452 or \$8.01 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story or one and one-half story, single-family dwellings of frame or masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 1,031 to 1,703 square feet of living area and range in age from 68 to 119 years. The comparables contain from one to three full bathrooms and a full-finished or unfinished basement. One comparable has air-conditioning, one comparable contains a fireplace and three comparables have a one-car or two-car garage. The improvement assessments range from \$8.01 to \$9.28 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board's comparables one and two are the most similar properties to the subject to carry weight. The board's two remaining comparables as well as the appellant's three comparables differ from the subject in location, exterior construction and/or age and the Board gives these properties less weight. The two similar properties have improvement assessments of \$8.01 and \$8.38 per square foot of living area. The subject's per square foot improvement assessment of \$8.01 is similar to these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
