

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Judy Petacque  
DOCKET NO.: 05-25379.001-R-1  
PARCEL NO.: 14-33-420-016-0000  
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Judy Petacque, the appellant, by attorney Lisa A. Marino of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 38-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,870 square feet of living area. Features of the home include three full bathrooms, air-conditioning and a two-car detached garage. The subject is built on slab and located in North Chicago Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, black and white photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story or three-story, single-family dwellings of frame or masonry construction located within nine blocks of the subject. The improvements range in size from 2,178 to 3,610 square feet of living area and range in age from 13 to 28 years. The comparables contain two full bathrooms. Two comparables contain a finished or unfinished basement, three

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 18,241  
IMPR.: \$ 81,076  
TOTAL: \$ 99,317

Subject only to the State multiplier as applicable.

comparables have air-conditioning and three comparables contain a one-car or two-car garage. The improvement assessments range from \$21.49 to \$27.02 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$99,317. The subject's improvement assessment is \$81,076 or \$28.25 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, single-family dwellings of masonry or stucco construction with the same neighborhood code as the subject. The improvements range in size from 2,737 to 3,494 square feet of living area and range in age from four to thirteen years. The comparables contain two and one-half bathrooms, air-conditioning, a fireplace and a multi-car garage. Two comparables contain a finished basement. The improvement assessments range from \$30.88 to \$33.92 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. These seven properties have improvement assessments ranging from \$21.49 to \$33.92 per square foot of living area. The subject's per square foot improvement assessment of \$28.25 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than three of the seven properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
