

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Georgianne Rubino  
DOCKET NO.: 05-25424.001-R-1  
PARCEL NO.: 15-27-218-014-0000

The parties of record before the Property Tax Appeal Board are Georgianne Rubino, the appellant(s), by attorney Ronald G. Glosniak, of Leff & Cohen of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,093  
**IMPR.:** \$26,389  
**TOTAL:** \$29,482

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 4,550 square foot parcel of land improved with a 51-year old, one-story, masonry, single-family dwelling containing 1,614 square feet of living area, two and one-half baths, air conditioning, and a full, unfinished basement. The appellant argued unequal treatment in the assessment process as the basis of the appeal.

In support of the equity argument, the appellant, via counsel, submitted information on a total of three properties suggested as comparable and located within the subject's neighborhood. The properties are described as one-story, masonry or frame and masonry, single-family dwellings with between one and two-half and two and one-half baths, a partial or full basement with two finished, air conditioning for one property, and, for two properties one or two fireplaces. The properties range: in age from 53 to 66 years; in size from 1,611 to 1,780 square feet of living area; and in improvement assessments from \$15.12 to \$16.37 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's improvement assessment of \$28,082 or \$17.40 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on three properties suggested as comparable and located within the subject's neighborhood. The properties are one-story, masonry, single-family dwellings containing one and one-half or two baths, a partial or full, unfinished basement, air conditioning for two properties, and, for one property, a fireplace. These properties range: in age from 21 to 52 years; in size from 1,343 to 1,447 square feet of living area; and in improvement assessments from \$18.35 to \$18.49 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the board of review's comparables are not similar to the subject in size.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has met this burden.

The parties submitted a total of six properties suggested as comparable to the subject. The PTAB finds the appellant's comparables are the most similar to the subject in design, size, and age. These properties are masonry or frame and masonry, one-story, single-family dwellings located within the subject's neighborhood. The properties range: in age from 53 to 66 years; in size from 1,611 to 1,780 square feet of living area; and in improvement assessments from \$15.12 to \$16.37 per square foot of living area. In comparison, the subject's improvement assessment of \$17.40 per square foot of living area is above the range of comparables. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
