

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert & Vicki Noonan
DOCKET NO.: 05-25505.001-R-1
PARCEL NO.: 14-32-219-015-0000
TOWNSHIP: North Chicago

The parties of record before the Property Tax Appeal Board are Robert & Vicki Noonan, the appellants, by attorney Patrick C. Doody of Chicago, and the Cook County Board of Review.

The subject property consists of a 128-year-old, one and one-half story, single-family dwelling of frame construction containing 2,065 square feet of living area and located in North Chicago Township, Cook County. Features of the residence include two and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellants submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellants' documents, the four suggested comparables consist of one-story, single-family dwellings of frame, masonry or frame and masonry construction. The improvements range in size from 2,021 to 3,848 square feet of living area and range in age from 21 to 116 years. The comparables contain from one to four full bathrooms. Two comparables have air-conditioning, three comparables contain one or two fireplaces and one comparable has a three-car attached garage. No basement descriptions were provided. The improvement assessments range from \$22.52 to \$23.88 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$68,600. The subject's improvement assessment is \$52,600 or \$25.47 per square foot of living area. In support of the assessment the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,000
IMPR.: \$ 52,600
TOTAL: \$ 68,600

board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,934 to 2,504 square feet of living area and range in age from 108 to 118 years. The comparables contain two or three and one-half bathrooms, a full-finished or unfinished basement and a two-car garage. One comparable contains air-conditioning and two comparables have fireplaces. The improvement assessments range from \$26.27 to \$30.78 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the appellants' comparable one and the board of review's comparables one and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, construction, amenities and location and have improvement assessments ranging from \$23.88 to \$30.78 per square foot of living area. The subject's per square foot improvement assessment of \$25.47 falls within the range established by these properties. The remaining comparables are accorded less weight because they differ from the subject in improvement size, location and/or amenities. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

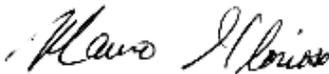

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
