

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Louise Petrovich
DOCKET NO.: 05-25535.001-R-1
PARCEL NO.: 15-27-406-021-0000

The parties of record before the Property Tax Appeal Board are Louise Petrovich, the appellant, and the Cook County Board of Review.

The subject property consists of an 80-year-old, one-story, single-family dwelling of frame construction containing 726 square feet of living area and located in Proviso Township, Cook County. Features of the home include one full bathroom, a partial-unfinished basement, air-conditioning and a two-car detached garage.

The appellant submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page letter, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 900 to 985 square feet of living area and range in age from 51 to 80 years. The comparables contain one or one and one-half bathrooms and a one-car, two-car or three-car garage. One comparable has an unfinished basement and one comparable contains air-conditioning. The improvement assessments range from \$13.23 to \$18.55 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 3,165
IMPR.:	\$ 14,272
TOTAL:	\$ 17,437

Subject only to the State multiplier as applicable.

area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$17,437. The subject's improvement assessment is \$14,272 or \$19.66 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 726 to 792 square feet of living area and range in age from 80 to 83 years. The comparables contain one full bathroom. Two comparables contain an unfinished basement and a one-car or two-car garage. The improvement assessments range from \$20.22 to \$21.73 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, and location and have improvement assessments ranging from \$20.22 to \$21.73 per square foot of living area. The subject's per square foot improvement assessment of \$19.66 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size in that they are much larger in size of living area as compared to the subject. Accepted assessment theory suggests that as building size increases the value per square foot decreases, all other things being equal. In the instant cause, the Board finds this theory is exemplified; the larger dwellings have lower per square foot assessments; and the smaller dwellings have higher per square foot assessments. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board

Docket No. 05-25535.001-R-1

finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
