

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Beth & Eric Dustman
DOCKET NO.: 05-25800.001-R-1
PARCEL NO.: 05-21-410-014-0000

The parties of record before the Property Tax Appeal Board are Beth & Eric Dustman, the appellants, and the Cook County Board of Review.

The subject property consists of an 83-year-old, two-story, single-family dwelling of frame and masonry construction containing 2,030 square feet of living area and located in New Trier Township, Cook County. Features of the home include two and one-half bathrooms, a full-finished basement, a fireplace and a two-car detached garage.

The appellant, Eric Dustman, appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellants also submitted photographs of the subject and the suggested comparables. Based on the appellants' documents, the four suggested comparables consist of two-story, single-family dwellings of frame, stucco or frame and masonry construction located within the subject's neighborhood. The improvements range in size from 1,808 to 2,192 square feet of living area and range in age from 84 to 91 years. The comparables contain one and one-half, two or two and one-half bathrooms, a full-unfinished basement and a one-car or two-car garage. Three comparables contain a fireplace. The improvement assessments range from \$13.32 to \$19.07 per square foot of living area.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 22,420
IMPR.: \$ 43,928
TOTAL: \$ 66,348

Subject only to the State multiplier as applicable.

PTAB/rfd4985

At hearing, the appellant asserted that the appellants' comparables are similar to the subject and located within one-half mile of the subject. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$66,348. The subject's improvement assessment is \$43,928 or \$21.64 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,889 to 2,200 square feet of living area and range in age from 79 to 86 years. The comparables contain two or three full bathrooms, a finished or unfinished basement, a fireplace and a two-car garage. The improvement assessments range from \$21.75 to \$25.62 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age and location and have higher per square foot improvement assessments than the subject. He also stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

The Board finds the appellants' comparables two and four and the board of review's comparables one and two to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$18.78 to \$25.62 per square foot of living area. The subject's per square foot improvement assessment of \$21.64 falls within the

range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
