

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Sam Gambacorta
DOCKET NO.: 05-25850.001-R-1
PARCEL NO.: 05-29-401-044-0000

The parties of record before the Property Tax Appeal Board are Sam Gambacorta, the appellant, and the Cook County Board of Review.

The subject property consists of a 52-year-old, one-story, single-family dwelling of masonry construction containing 1,120 square feet of living area. Features of the home include one full bathroom, air-conditioning, a fireplace and a two and one-half car detached garage. The subject is built with crawl space and located in New Trier Township, Cook County.

The appellant appeared before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page letter, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story or one and one-half story, single-family dwellings of masonry construction located within six blocks of the subject. The improvements range in size from 1,325 to 1,760 square feet of living area and range in age from 47 to 75 years. The comparables contain one and one-half or two full bathrooms, a finished or unfinished basement and a fireplace. Three comparables contain air-conditioning and a one-car or two-car garage. The improvement assessments range from \$9.15 to \$15.52 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 16,368
IMPR.: \$ 24,428
TOTAL: \$ 40,796

Subject only to the State multiplier as applicable.

PTAB/rfd5345

At hearing, the appellant indicated that the board's comparables, unlike the subject, are of frame construction. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$40,796. The subject's improvement assessment is \$24,428 or \$21.81 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. However, at hearing, the board's representative withdrew the board of review's comparable two. The three remaining suggested comparables are improved with one-story, single-family dwellings of frame construction located within a distance of 1.3 miles from the subject. The improvements range in size from 1,048 to 1,395 square feet of living area and range in age from 48 to 54 years. The comparables contain one or one and one-half bathrooms and an unfinished basement. Two comparables contain air-conditioning and a fireplace and two comparables have a two-car garage. The improvement assessments range from \$22.32 to \$25.26 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age and amenities and have higher per square foot improvement assessments than the subject. He also stated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar overall properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location have improvement assessments ranging from \$22.32 to \$25.26 per square foot of living area. The subject's per square foot improvement assessment of \$21.81 falls

below the range established by these properties. The Board finds the appellant's comparables less similar overall to the subject in improvement size and/or age. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
