

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John T. Stroud
DOCKET NO.: 05-26037.001-R-1
PARCEL NO.: 27-08-208-006-0000

The parties of record before the Property Tax Appeal Board are John T. Stroud, the appellant(s), by attorney Frederic I. Chaimson, of Mayster & Chaimson Ltd of Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,118
IMPR.: \$ 21,451
TOTAL: \$ 31,569

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 16-year old, two-story style townhouse dwelling of frame and masonry construction containing 1,900 square feet of living area with a full, unfinished basement, two and one-half baths, central air conditioning, a fireplace and a two-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on five comparable properties described as two-story frame and masonry townhouse dwellings that are from 15 to 17 years old for consideration. The dwellings have the same neighborhood code as the subject property. The comparables contain from 1,900 to 2,580 square feet of living area with two and one half baths, full basements central air conditioning, fireplaces and two car garages. The comparables have improvement assessments ranging from \$5.49 to \$10.91 per square foot of living area. Based on

this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The subject's improvement assessment is \$11.29 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story frame and masonry townhouse dwellings that range in age from 17 to 18 years old. The dwellings have the same neighborhood code as the subject property. The dwellings contain 1,900 square feet of living area with two and one half baths, full basements, central air conditioning, fireplaces and two-car garages. These properties have improvement assessments ranging from \$12.13 to \$12.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds that comparables submitted by the board of review and comparables one and four submitted by the appellant were most similar to the subject in size, design, exterior construction, location and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$5.49 to \$12.38 per square foot of living area. The subject's improvement assessment of \$11.29 per square foot of living area is within the range established by these properties. The Board finds the remaining properties less similar in improvement size when compared to the subject and accords these properties diminished weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.
