

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dan Goldman
DOCKET NO.: 05-26101.001-R-1
PARCEL NO.: 14-33-102-035-0000

The parties of record before the Property Tax Appeal Board are Dan Goldman, the appellant(s), by attorney Edward Larkin, of Larkin & Larkin of Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 15,110
IMPR.: \$ 56,360
TOTAL: \$ 71,470

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 2,479 square foot parcel improved with a 118-year-old, two-story, single-family dwelling of masonry construction containing 2,022 square feet of living area and located in North Chicago Township, Cook County. Features of the residence include two full bathrooms, a full-finished basement and a fireplace.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. Based on the appellant's documents, the three suggested comparables consist of two-story or three-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in

size from 2,689 to 3,360 square feet of living area and range in age from 105 to 125 years. The comparables contain from two and one-half to four full bathrooms and a full-finished or unfinished basement. One comparable has a fireplace and one comparable has central air-conditioning and a garage. The improvement assessments range from \$18.30 to \$24.49 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$71,470. The subject's improvement assessment is \$56,360 or \$27.87 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 118 or 132-year-old, single-family dwellings of masonry construction located within five blocks of the subject. The improvements range in size from 1,760 to 2,022 square feet of living area. The comparables contain two or two and one-half bathrooms and a full-finished basement. Two comparables have fireplaces. The improvement assessments range from \$33.78 to \$37.48 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden. The Board finds the board of review's comparables one, three and four to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age, design and location and have improvement assessments ranging from \$33.78 to \$36.69 per square foot of living area. The subject's per square foot improvement assessment of \$27.87 falls below the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or design and accorded less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.
