

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vilas Khandeparker
DOCKET NO.: 05-26130.001-R-1
PARCEL NO.: 18-19-103-028-0000

The parties of record before the Property Tax Appeal Board are Vilas Khandeparker, the appellant(s), by attorney Edward Larkin, of Larkin & Larkin of Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 23,576
IMPR.: \$ 103,913
TOTAL: \$ 127,489

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 16-year old, two-story style dwelling of frame and masonry construction containing 5,790 square feet of living area with a partial, unfinished basement, three and one-half baths, central air conditioning, two fireplaces and a three-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on three comparable properties described as two-story masonry dwellings that are from ten and nineteen years old for consideration. The comparables contain from 5,429 to 5,992 square feet of living area. The comparables feature from three to five full baths, half baths, full basements, central air conditioning, fireplaces and multiple car garages. These properties have improvement assessments ranging from \$15.79 to \$17.25 per square foot of living area. The subject's improvement assessment is \$17.95 per square foot of living area. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame and masonry dwellings that range in age from thirteen to nineteen years old. The dwellings contain two or four full baths, full or partial basements, central air conditioning, fireplaces and three car garages; two also have additional half baths. The dwellings range in size from 5,187 to 6,536 square feet of living area and have improvement assessments ranging from \$20.30 to \$25.76 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the all of the comparables submitted by the parties were similar to the subject in size, design, construction, location and/or age. These comparables had improvement assessments that ranged from \$14.79 to \$25.76 per square foot of living area. The subject's improvement assessment of \$17.94 per square foot of living area is within the range established by the comparables in the record. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.
