

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: SM Stauffer
DOCKET NO.: 05-26149.001-R-1
PARCEL NO.: 18-05-201-001-0000

The parties of record before the Property Tax Appeal Board are SM Stauffer, the appellant(s), by attorney Edward Larkin, of Larkin & Larkin of Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 2,880
IMPR.: \$ 66,981
TOTAL: \$ 69,861**

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 127-year old, two-story style dwelling of frame construction containing 3,615 square feet of living area with central air conditioning, three full baths and a two and one-half car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story frame or masonry dwellings that are from 108 and 117 years old for consideration. The comparables contain from 2,252 to 4,406 square feet of living area and have improvement assessments ranging from \$10.21 to \$15.00 per square foot of living area. Features of three of the comparables are described as containing full unfinished basements and two-car garages; one also has air conditioning. Features of the fourth property were not submitted. The subject's improvement assessment is \$18.52 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on three comparable properties consisting of two-story frame dwellings that range in age from 97 to 112 years old. The dwellings have three or four baths, full unfinished basements fireplaces, and garages; two also have central air conditioning. The dwellings range in size from 3,290 to 3,593 square feet of living area and have improvement assessments ranging from \$20.23 to \$20.65 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted by the board of review were most similar to the subject in size, design, exterior construction, location and/or age. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$20.23 to \$20.65 per square foot of living area. The subject's improvement assessment of \$18.52 per square foot of living area is below this range. The Board finds the appellant's comparables less similar in size and amenities and accords these properties less weight. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported and a reduction in the subject's assessment is not warranted.
