

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Samuel Pollock
DOCKET NO.: 05-26404.001-R-1
PARCEL NO.: 20-23-408-004-0000

The parties of record before the Property Tax Appeal Board are Samuel Pollock, the appellant, by attorney Julie Realmuto of McCarthy & Duffy, Chicago, and the Cook County Board of Review.

The subject property consists of a 9,660 square foot parcel improved with a 100-year-old, three-story style multi-family dwelling of masonry construction. Containing 9,636 square feet of living area, the subject features six apartments and a three and one-half car garage. The subject is located in Hyde Park Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two or three story style multi-family dwellings of frame or masonry construction from 95 to 110 years old. The comparables range in size from 2,484 to 9,006 square feet of living area and contain two or six apartments. The comparables have improvement assessments ranging from \$1.77 to \$2.78 per square foot of living area. A copy of the subject's 2005 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$28,864, or \$3.00 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located within five blocks of the subject. The comparables consist of three-story style multi-family dwellings of masonry construction ranging from 91 to 103 years old. These properties contain from

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,151
IMPR.:	\$	24,400
TOTAL:	\$	28,551

Subject only to the State multiplier as applicable.

8,376 to 10,307 square feet of living area and have six apartments each. The comparables have improvement assessments ranging from \$2.53 to \$3.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. The Board accords substantial and primary weight to the board of review's comparables one through three and the appellant's comparable numbered four. The Board finds that these improvements are similar in size, construction type, age, and amenities when compared to the subject. The Board accords the remaining properties less weight. The Board finds that the remaining properties are less similar primarily in size when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment of \$3.00 is not supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
