

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: James Johannesen
DOCKET NO.: 05-26442.001-R-1
PARCEL NO.: 18-07-305-015-0000

The parties of record before the Property Tax Appeal Board are James Johannesen, the appellant, by attorney Mendy Pozin of Northbrook, and the Cook County Board of Review.

The subject property consists of a seven-year-old, two-story, single-family dwelling of masonry construction containing 5,373 square feet of living area and located in Lyons Township, Cook County. Features of the home include three full bathrooms, two half-baths, a full-unfinished basement, air-conditioning, a fireplace and a three and one-half car attached garage.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of masonry construction with the same neighborhood code as the subject. One comparable is located on the same street as the subject. The improvements range in size from 5,401 to 5,825 square feet of living area and range in age from six to sixteen years. The comparables contain four or five full bathrooms, a finished or unfinished basement, air-conditioning, from one to three fireplaces and a three-car or four-car garage. The improvement assessments range from \$22.91 to \$29.78 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 24,304
IMPR.: \$ 200,696
TOTAL: \$ 225,000

Subject only to the State multiplier as applicable.

PTAB/rfd5497

At hearing, the appellant's attorney argued that the board of review's comparables are newer construction and its comparable two is significantly larger in size of living area as compared to the subject. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$250,084. The subject's improvement assessment is \$225,780 or \$42.02 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with two-story, four-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements contain 5,189 and 7,379 square feet of living area. The comparables contain two and one-half or six full bathrooms, a full-finished basement, air-conditioning, one or four fireplaces and a three-car or four-car garage. The improvement assessments are \$60.28 and \$54.39 per square foot of living area, respectively. The board's evidence disclosed that the subject sold in June 2001 for a price of \$2,570,000.

At hearing, the board's representative indicated that the subject's assessed valuation is in line with the June 2001 purchase price of \$2,570,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$22.91 to \$29.78 per square foot of living area. The subject's per square foot improvement assessment of \$42.02 falls above the range established by these properties. The Board also finds the board's comparable two differs significantly from the subject in improvement size. The Board further finds that

based on equity the subject property as well as the board's comparable one are over assessed. After considering the subject's sale for \$2,570,000 and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
